Creating Your Onboard Account through Login.gov

Part I

Creating Your Onboard Account through Login.gov

- This is a step-by-step guide to assist you with accessing your onboarding account through login.gov. If you already have a login.gov account, please refer to *Part II - Accessing Your Onboard Account through Login.gov*
- Login.gov is a service that offers secure and private online access to government programs. With a login.gov account, you can sign into multiple government websites with the same username and password.
- To access your USA Staffing Onboard account, you have to go through your USAJOBS profile which requires a login.gov account.

For more information regarding the new login method, check out USAJOBS FAQ at:

<https://www.usajobs.gov/Help/faq/account/login-gov/>

Creating Your Onboard Account through Login.gov

To create your new account you will need access to:

- ✓ Internet, AND
- ✓ Primary e-mail address associated with your USAJOBS profile, AND
- ✓ Phone (that you will use to receive the system-generated security code each time you log in)

Important Note for Users Outside of the United States: Login.gov can not call users outside of the United States. If you have an International code of any number other than +1, you must receive your security code via Text message (SMS). Do not register an international landline because you will not receive the code.

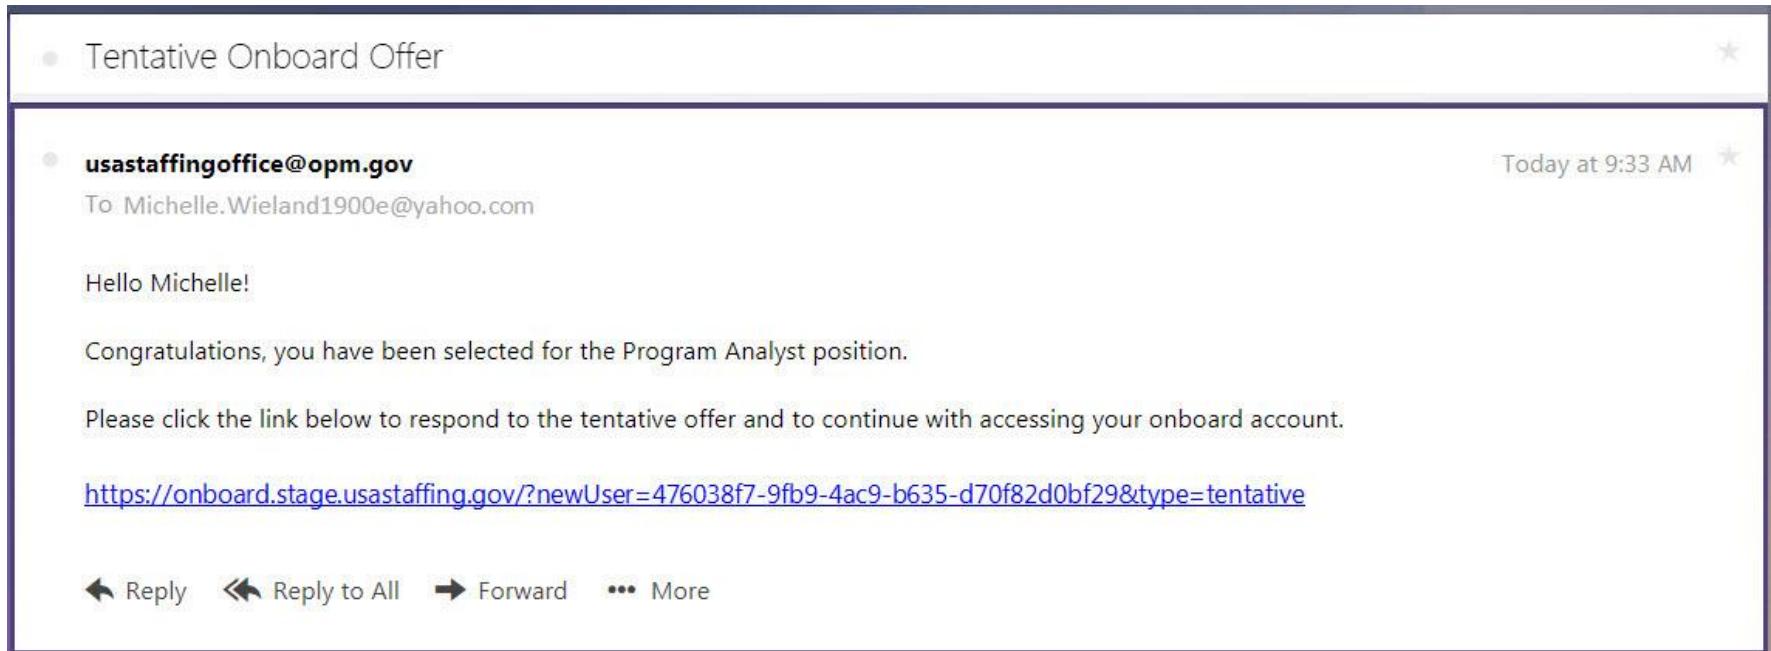

Be sure to set aside 10 minutes of uninterrupted time when creating your account.
And, carefully read and follow the given instructions.
